### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Amendment filed on 9/07/04.
2. Claims 1-10 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Examiner agrees with Applicant's arguments regarding claim 1.

The prior art of record does not disclose or render obvious a motivation to provide for a continuously variable power split transmission system as defined by the limitations of claim 1, including a first motor connected to a sun gear of a planetary gear set, a countershaft connected to a ring gear of the planetary gear set through a first clutch, a second motor connected to the countershaft, a sun that is linked to the sun gear connected to the countershaft through a speed variator, and an output shaft connected to a carrier of the planetary gear set, wherein the power input from the first motor is split into two streams, one stream passing through the speed variator to the countershaft and the ring gear, and the other stream passing directly through the sun gear, and the power input from the second motor adds power to the output shaft through the countershaft while reducing the power flow required to pass through the speed variator.

There is no teaching of the claimed continuously variable power split transmission that has a second motor connected to a countershaft as required by the limitations of claim 1. Yada'462 shows a first motor (1) connected to a sun shaft (2) that is linked to a sun gear (4) of a planetary gear set (4, 5, 6), a second motor (8) having a motor output shaft, which can be interpreted as a countershaft, connected to a ring gear (5) of the planetary gear. However, that

motor output shaft is not connected to the sun shaft (2) through a speed variator and connected to the ring gear (5) of the planetary gear set through a clutch as required by the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Applicant's response filed 9/07/04 overcomes the drawing objections.
5. Any inquiry concerning this communication should be directed to Examiner HO at telephone number (703) 305-0738.
